

TESTIMONIES

- In spite of my 55 years in the ministry, I have, together with the other good men, been instructed, edified and challenged.
- The substance and the intensity with which every subject was presented reinforced our positions in our faith and practice and answered questions I faced in matters of pastoral responsibilities.
- Excellent presentation and character of the leaders. I felt equal to them – never spoken down to. It covered my needs and questions very well.
- There is truly a spirit of excellence among the team of teachers
- Did not feel like I was looked down on. If I wanted to say something there was understanding.
- Arriving with preconceived ideas stemming from previous teaching and tradition, my expectation was “another camp meeting!!” Quickly I learned that this isn’t the case. Areas so damaging in our churches today were addressed and dealt with each day.
- My heart was filled, my mind was stimulated, my soul was strengthened, my spirit uplifted by all the blessings that were made available to me. The school gave me new courage and insight to my own spiritual condition and my desire to lead my people into greater blessings by God’s help.
- I cannot express enough the practical, pertinent impact PTS has already had on me this week. Already I have begun to apply some of the lessons learned in my personal walk with the Lord, and as an under shepherd in my local assembly.
